## Synopsis

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For two-semester courses in General Chemistry This package includes MasteringChemistry®. A relevant, problem-solving approach to chemistry The Third Edition of Principles of Chemistry: A Molecular Approach presents core concepts without sacrificing rigor, enabling students to make connections between chemistry and their lives or intended careers. Drawing upon his classroom experience as an award-winning educator, Professor Tro extends chemistry to the student's world by capturing student attention with examples of everyday processes and a captivating writing style. Throughout this student-friendly text, chemistry is presented visually through multi-level images that help students see the connections between the world around them (macroscopic), the atoms and molecules that compose the world (molecular), and the formulas they write down on paper (symbolic). The Third Edition improves upon the hallmark features of the text and adds new assets: "Self Assessment Quizzes, Interactive Worked Examples, and Key Concept Videos" creating the best learning resource available for general chemistry students. Personalize Learning with MasteringChemistry MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever: "before, during, and after class." 0321971167/9780321971166 Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package, 3/e Package consists of: 0321971949/0321971949 Principles of Chemistry: A Molecular Approach, 3/e 0133890686/

## Customer Reviews

Great condition and very carefully packaged. All of the mastering books I've had are great explainers and this one seems to be the same. This book arrived early and the price is completely fair. I must apologize as at first I couldn't find the access code without breaking the wrap which covered the book. This caused me to panic at first that the access code was missing. It turns out it was just in a thinner holder than previous Mastering books I've purchased and was inside the back of the book unattached. Thank you very much for my new book and code!
