This is a great book. It has just about everything you need to plan your wedding. I would recommend it. I just have a couple of complaints. I am not fond of the flimsy spiral binding (it's coming apart). And though I love the pockets for receipts etc... sometimes they aren't in the right place in the book because they are double sided with another category.

Two years after our wedding and I'm still using this planner for other couples trying to get vendor info from ours. I love this planner, It absolutely worked for everything I needed to keep and write down

for our wedding. It is even a journal that will keep up memories for years from our wedding. I only wish it had more pockets without labels so I could insert things that were not related to the "topics" on the planner, but wedding necessary.

I purchased this book for a friend who is planning her wedding. She thinks it is an excellent resource for wedding planning. She gives it 5 stars because it makes the whole process almost thoughtless. It kept her very organized and focused on the tasks that needed to be accomplished and recommends it for every bride-to-be.

I lived with this book by my side the entire time I was planning my wedding. It has very helpful information as well as pages and pockets after each section for notes and to hold papers. I'm sure there are many other great planners out there but this one was good to me and reasonably priced. I really liked it because some of the things mentioned were not thoughts in my head until I read the section and realized it was important. I only regret that I ordered on without browsing any bookstores first to see all types of planners in person.

This book has great check list and pockets to keep items in. BUT the sections for addresses and such only have one page and say that you can "make copies". Not very convenient. Also, the book is a harder paper back, not a hard back, which may make for less durability. Overall it is a great planner, but not as nice as I had expected.
