Customer Reviews

Phimosis can be a nerve-wracking and frustrating experience for men that suffer from it. There are a

lot of drastic cures and solutions on the market (such as adult circumcision...ouch!) as well as quackery. Arvin Brits' book relies on sound advice and science to explain phimosis and how to cure it naturally and safely. Arvin Brits provides a quick and invaluable anatomy lesson to explain what is happening with the penis to make sure that his readers are on the same page. From there, the book is all business, which is excellent. This is one of those rare treasures on Kindle that could change your life. Men, don't be afraid to pick up this ebook. This is a game changer.

I had heard of this before, but never knew it was completely possible. I am lucky to find this book! I was facing a tough decision, but this book gives me hope, and I will stay out of the hospital!

Helpful techniques and very easy to read. Definitely an easy read and able to fully understand it unlike those other medical books
