Customer Reviews

i found this book in a corner of a library of an Indian company where i used to work. With curiosity i picked it up. Until then i had no idea about the contents of the book. i started reading the book and experimenting on myself. it felt pleasurable. the way the matter is organized in the book with scientific results is just unbelievable. After reading the book i really felt that this is the right book to learn and experience the power of meditation and other mind healing techniques which empowers the brain. Though i read the book a number of times, i find something new everytime i read it. it helped me get rid of tensions of professional life.
